

PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years of experience** designing, developing, and deploying scalable web applications using **React.js, Next.js, Node.js, Express.js, TypeScript, JavaScript, MongoDB, and MySQL**. Proven track record constructing high-performance backend systems with secure RESTful APIs, JWT/Session authentication, Role-Based Access Control (RBAC), and programmatic Razorpay payment webhooks. Skilled at tuning frontend rendering (SSR/SSG, code splitting) and database queries (compound indexing, aggregation pipelines), elevating Google Lighthouse scores to **90+** and cutting page load times by **30%**.

SKILLS

• **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL • **Frontend:** React.js, Next.js (App Router, SSR, SSG), Redux Toolkit, Context API, Tailwind CSS, Bootstrap, Core Web Vitals • **Backend & APIs:** Node.js, Express.js, RESTful APIs, Middleware, JWT, Session Auth, RBAC, Razorpay Gateway, Axios • **Databases:** MongoDB (Mongoose, Aggregations, Indexing), MySQL (Relational Modeling, Query Tuning) • **DevOps & Tools:** Git, GitHub, GitHub Actions (CI/CD), Vercel, Microsoft Azure, Postman, Technical SEO (JSON-LD), Agile/Scrum • **AI-Assisted Engineering:** Claude Code, Google Antigravity, GitHub Copilot, ChatGPT

PROFESSIONAL EXPERIENCE

Full Stack Engineer | Keasbrain Technologies Pvt Ltd Dec 2025 – Jul 2026
Jaipur, Rajasthan, India

- Delivered and launched **Visuti Career** (SaaS career counseling platform) serving **500+ active users**, driving full-stack features from technical design through live deployment.
- Architected scalable **RESTful APIs** in **Node.js and Express.js**, integrating custom validation middleware and centralized error-handling layers to ensure 99.9% uptime.
- Refined **MongoDB aggregation pipelines** and created compound indexes, cutting database query execution latency by **~40%** under high-concurrency peak traffic conditions.
- Elevated Google Lighthouse performance scores to **90+** on deployed web apps by executing asset compression, Next.js SSR/SSG caching, and dynamic code splitting.
- Accelerated sprint delivery cycles and feature throughput by **25%** by integrating AI-assisted developer workflows (Claude Code, Google Antigravity) with automated GitHub Actions CI/CD.

Front-End Developer | Aladinn Digital Solutions Jun 2024 – Nov 2025
Jaipur, Rajasthan, India

- Developed high-performance web applications using **React.js, Next.js, and TypeScript**, reducing initial page load times by **30%** via route-level code splitting and lazy loading.
- Crafted a reusable modular design system of **40+ Tailwind CSS UI components**, accelerating frontend feature velocity and ensuring UI consistency in multiple client applications.
- Integrated client-side state management and asynchronous RESTful API endpoints with Axios across **3+ client projects**, implementing request debouncing and centralized error boundaries.
- Applied **Next.js SSR/SSG** rendering strategies and structured JSON-LD schemas for **4+ live pages**, boosting organic search visibility and technical SEO rankings.

PROJECTS

Visuti Career — SaaS Career Counseling Platform visuticareer.com
Next.js, Node.js, Express.js, MongoDB, Razorpay, RBAC

- Architected a **Role-Based Access Control (RBAC)** engine governing granular permissions for 5+ user roles (Admin, Counselor, Student, Recruiter, Support).
- Implemented subscription payment workflows with **Razorpay Webhooks**, enabling event-driven plan provisioning, billing management, and secure plan-gated insights.
- Secured the application utilizing HTTP-only session cookies for admin panels and stateless **JWT tokens** for student/user authentication.

Muzspot — Hyperlocal Business Discovery Web App muzspot.com
Next.js, TypeScript, Tailwind CSS, REST APIs

- Designed multi-tenant portal infrastructure with isolated **JWT authentication** supporting **2 distinct user roles** (Consumer, Vendor) with separate dashboards on a single domain.
- Engineered client-side search debouncing and caching mechanisms, slashing redundant API network requests by **50%** and maximizing interface responsiveness.
- Streamlined media delivery via video lazy loading and CDN asset distribution, improving First Contentful Paint (FCP) by **~35%** on the homepage.

JKJ Jewellers — Luxury E-Commerce Platform jkjewellers.in
Next.js, TypeScript, Tailwind CSS, REST APIs

- Shipped an end-to-end luxury e-commerce experience with dynamic multi-attribute product filtering, persistent shopping cart, and integrated payment checkout for **100+ SKUs**.
- Optimized Core Web Vitals (LCP/FCP) through Next.js responsive image formats (WebP/AVIF), asset preloading, and aggressive client-side caching.
- Structured comprehensive product schemas (JSON-LD) and Open Graph meta tags, improving search engine indexing and commercial keyword rankings.

EDUCATION

Bachelor of Computer Applications (BCA) 2021 – 2024
S.S. Jain Subodh P.G. (Autonomous) College, Jaipur, Rajasthan, India

Senior Secondary Education (Class XII) — RBSE (Score: 90%) 2021
Govt. Senior Secondary School, Jaipur, Rajasthan, India
